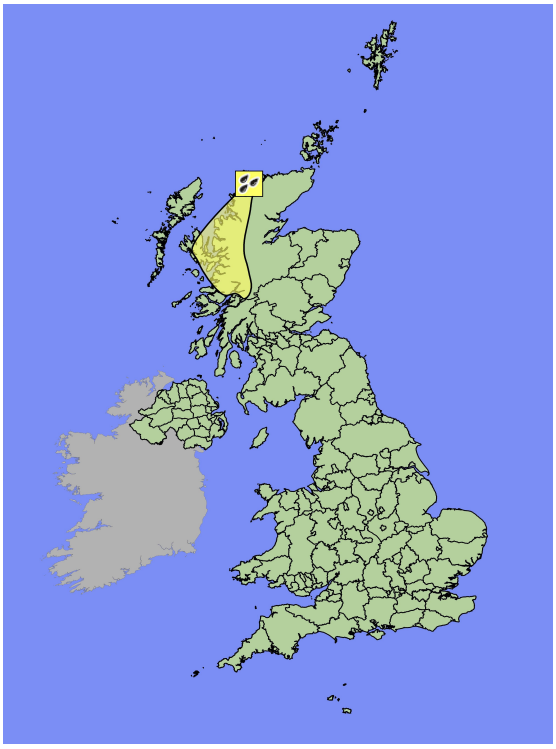
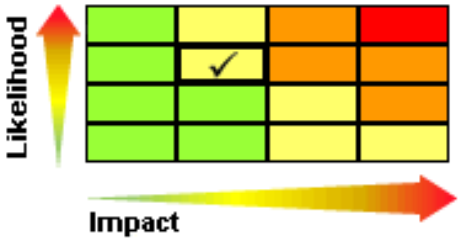
National Severe Weather Warning Service





CANCELLED

Chief Forecasters Assessment
An active front will cross the area, bringing strong winds and moist conditions from the subtropics. Air being forced up the rising ground of northwest Scotland will release a lot or rain, with around 60 mm expected locally.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **09:00 on Thu, 06th Sep 2012** until **19:00 on Thu, 06th Sep 2012**

Rain will become heavy and persistent across the Northwest Highlands, Skye and Lochaber during Thursday with some large rainfall totals accumulating over hills before it eases during Thursday evening. The public should be aware of the risk of localised flooding.
